

In this community nursing role, as a Nurse Specialized in Wound, Ostomy and Continence (NSWOC) and as working as a part of the ParaMed nursing health care team, the NSWOC will provide and promote evidenced based advanced wound, ostomy and continence assessment, management and care to all patient groups either through a consultative process or by direct care.

**Why you'll love working here:**

- Autonomy, independence, and a work-life balance
- Supportive team of peer nurses and supervisors
- Opportunity to develop long term therapeutic relationships with patients
- Best in class training and development programs, including a comprehensive clinical orientation and hands-on skills labs
- Celebration and Recognition programs
- Part time and Full-time scheduling including every other weekend off
- Comprehensive health and dental benefit plans
- Company paid mobile devices
- Mileage compensation
- Opportunities for career advancement
- Employee perks and exclusive offers

**What you'll do:**

- Provide direct practice to patients requiring wound, ostomy and continence assessment, care and management.
- Provide education to ParaMed's nursing health care team, patient, and families.
- Provide consultation /clinical support to ParaMed's nursing health care team (direct/or remote) including recommendations for specialty products/nursing care.
- Participate in wound/ostomy/continence clinical leadership opportunities.
- Collaboration with internal and external stakeholders.
- Preceptor ParaMed nurses as required.
- Follow wound, ostomy and continence evidence based clinical best practices and ParaMed policies and procedures.

**What you bring:**

- IIWCC, NSWOC, WOCC(c), SWAN, or other advanced wound care education/certification
- Minimum of 2 years' experience as a practicing Registered Nurse ideally in a community setting and/or providing wound/ostomy/continence care to patients (direct care/consultation)
- Current membership/registration with the Nurses Specialized in Wound Ostomy & Continence Canada (preferred)
- Ability to perform BCLS to College of Nurses standards
- Completion of the Canadian Enterostomal Therapy (E.T.) Nursing program
- Current registration with the CAET
- Knowledge of standards and guidelines of Enterostomal Therapy and wound care
- Comprehensive Enterostomal Therapy and wound care patient health assessment skills
- Thorough knowledge of wound care products and indications for use

Join us as we continue our 40-year tradition to help people live better and provide the most compassionate care possible! Join a winning team and let's succeed together!

ParaMed Home Health Care accommodates the needs of job applicants throughout its recruitment and selection processes upon request.
